

# Fire Department & Johnson Beth-El Human Physiology & Nutrition Internship

The **Colorado Springs Fire Department** and the UCCS Johnson Beth-El **Human Physiology & Nutrition Department** are offering an **internship** for **Spring 2022**.

The internship consists of assisting with the **assessment and physical training of the incoming trainees** for the Colorado Springs fire academy class of Spring 2022.

The internship is looking for students passionate about the **tactical strength and conditioning field**, and requires an early morning commitment of 75-90 minutes, 3-4 days per week. The internship starts in **early February** and extends 20 weeks to **early June**.

The internship will be under the supervision of the fire academy supervisor; 1-2 certified tactical strength and conditioning coaches; and Dan Hutchison, the internship coordinator for this Human Physiology & Nutrition experience.

*If interested in this internship experience, please contact **Dan Hutchison** (dhutchis@uccs.edu) to set up a meeting to discuss the details and application procedures for this opportunity.*
