Topic: ***Living with Alzheimer's: For People with Early Stage Alzheimer's and Care Partners.***

In the early stage of Alzheimer's disease, families face new questions as they adjust. What does the diagnosis mean? What kinds of plans need to be made? What resources are available to help? Hear from those directly affected and learn what you can do to cope with the changes that come with an early-stage diagnosis. **This is a three-part series. Additional training dates TBD.**
